

Tactical Fighter Training

delivered by

World Professionals

Tactical Fighter Training

'Enhancing Operational Pilot Capabilities'

Independent Specialists

We employ Western/NATO trained Fighter Weapons instructors and adapt tactics to suit local and regional requirements. All our instructors are prize-winning Graduates with thousands of hours of operational and instructional experience on modern helicopters and 4th / 5th Gen fighters and Tactical Transport aircraft including

- Chinook, Apache, Huey, Lynx, Gazelle, C-130 Hercules, A400M Atlas, Su-30, Eurofighter, Rafale, Jaguar, Hawk, F-18, F-16, F-35

Global Training

We provide our discreet services worldwide, and work with your instructional units at a level that is comfortable for you and your Air Force – be it alongside in the classroom or closely integrated in the cockpit - we deliver bespoke training to your doorstep, or at a location of your choosing.

Unique Service

We combine the latest western and non-western fighter tactics with our extensive training, operational and safety-culture experience from theatres in Asia, Europe, Eurasia, Middle East, Africa, and the Americas across a broad range of platforms, from the Chinook to Su27/30 Flanker to Tac Transport .

- Tactical Instruction using a hybrid of western and non-western Tactics / Doctrine / Comm
- Create new tactics based on local and regional requirements, and/or adapt existing tactics
- We are flexible & cost-effective – no task is insurmountable
- We work with your trainers for optimum benefit in the short and long-term
- We train ab-initios through to Weapons Instructors, day and night, at all altitudes
- Scalable contracts

How We support You

'Rapid path to improved Operational Capability'

Analyse

With co-operation from our client, we conduct a 'needs analysis' to

- Understand national strategic and tactical objectives
- Optimise potential of air platforms
- Swiftly understand current training, tactics, procedures and safety standards
- Agree training plan

Design

Comprehensive Training Need Analysis combined with end-user consultation enables us to develop a training plan that is

- Output driven
- Focussed training
- Tactically optimised
- Safe and effective

Deliver

Flexible training delivery options ranging from classroom lectures, production of Tactics, Techniques and Procedures Manuals to syllabus design, front & rear-seat tactical instruction & Qualified Weapons/Tactics Instructor Courses, comprising:

- Bespoke Courseware
- Latest Tactics adapted and applied to your Operational needs
- Enhanced training, safety and capability
- Widely experienced and prize-winning front-line Instructors

Training Services

Tailored Training; the world's best and most adaptable, delivered to your doorstep'

The training we provide is agnostic to aircraft type, and distilled from tactics and techniques delivered by graduates from US Navy TopGun, RAF CFS and QWI training.

We draw on our operational war-time experience and participation and management of multiple Large Forces Exercises, including RED FLAG and operating as White Force. We train in English using NATO Standard Communications & Codewords.

We are not affiliated to any nation state and can help you train on any aircraft type; our Instructors are able to adapt the latest tactics and procedures to your training system, aircraft and weapons through experience of flying in, with or against current 4th and 5th Gen fighters, attack and support helicopters and all Tactical Transport aircraft and missions.

We aim to help you raise standards, increase proficiency, improve safety & teach new skills; all geared towards a more capable and effective military force.

We can deliver, or help you deliver any element of your training. Some of our specific training elements are

- Courseware Production
 - Tactical Training Manual
 - Syllabus design and delivery
 - Briefings
 - Instructor Training Guides
 - Student Study Guides
 - Weapon Delivery Profiles

- Basic Fighter Training (BFM, ACM, BVR, OCA, DCA)
- Specific Task Training – Night/NVG, Low Level, Counter Maritime Operations
- Close Air Support (CAS), Dynamic Targeting
- Night Recce Fields (NRF) and Night Tactical Formation (NTF)
- Electronic Warfare (Electronic Attack, Electronic Counter Measures)
- Combat Search & Rescue (CSAR)
- Fighter Weapons Instructor Course
- Helicopter (attack) training
- Tactical Transport Operations including Special Forces integrations
- Instructor Pilot Training
- Mission Command Training (COMAO Lead)

TFT Affiliations and Credentials

'Who are you dealing with?'

Instructional Staff

All our instructional staff are former military aviators and officers. We have the combined experience in qualifying from CFS (A2 Flying Instructors), Tactical Leadership Programmes, RED FLAG, QWI courses including TopGun

We recruit primarily from the Royal Air Force in the UK, focussing on exceptional personnel who have:

- Attained high positions of command and leadership front-line squadrons
- Weapons and tactics instructors Squadron QWIs
- NVG Instructors

International Experience

All our pilots have multi-national experience and are sensitive to cultural needs.

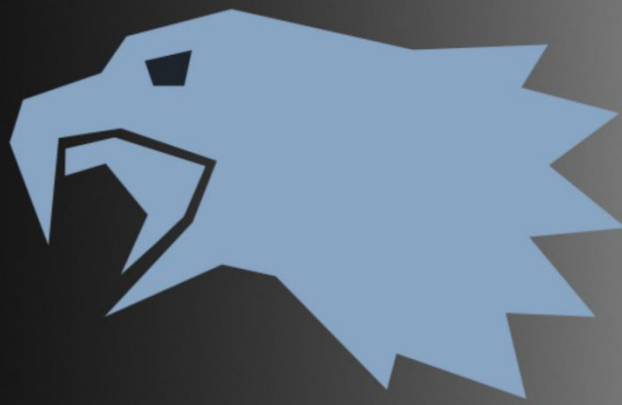

We have flown, trained and engaged in business activities across the Middle East, China, Indonesia, Singapore, Australia, US and Canada all over Europe, including former eastern bloc countries.

Some of our feedback

OC 11 Sqn TNI-AU – 'The IPs are part of our team; we have been shown how to properly dogfight, to employ BVR missiles and how to design our own tactics'

Lt Col 5th Wing, F16 Pilot – 'Thanks to TFT Instructors, our F-16s were able to demonstrate their real capabilities, beating the Sukhoi in air combat'

Lt Col VFA 125, US Navy 'This TFT Instructor was awarded Best of Class for carrier landings during his first tour at sea'

The right people, for the new job'

Thank you for reading our brochure.

We are here to help your Air Force develop, train better and improve operational effectiveness.

Training that 'sticks', delivered swiftly by professional people from an agile company.
